

The new TESORO collection is inspired by the breathtaking diversity of nature

High-quality glass beads and mica, as well as raised structures with tactile colours and metallic effects characterise this collection. Seven designs in seven colour worlds can be attractively combined. Shimmering surfaces and tactile patterns bring different effects to your walls and radiance to your rooms. Our inspiration comes from nature: Amorphous structures, slate, mineral treasures and precious metals. Minerals are natural, solid substances that occur in the earth's crust. They consist of various chemical elements and have a crystalline structure. Precious metals are an important resource due to their diverse uses and their value, they are an important resource and create a sparkling world along material values. Matt feel, high depth effects and shimmer create a visual and tactile experience for your ambience. Let us invite you to discover our TESORO collection.

Visuals

Leaf structures, partly playful, partly abstract. Brings a canopy of leaves to your wall.

(Design „Pianta“ from the Tesoro collection)

Graphic elements with a net-like structure that connects the shapes.

(Design „Forma“ from the Tesoro collection)

Amorphous, marble-like structures, decorated with real glass beads and mica.
Versatile in use.

(Design „Perlina“ from the Tesoro collection)

About Hohenberger wallpaper manufactory

The Taubert family is now in its third generation of wallpaper manufacturers. Even today, this is still done by hand and with great attention to detail. Wallpapers from Hohenberg are produced - exclusively in Germany - in a particularly sustainable way and are one hundred per cent free from PVC, plasticisers and solvents. State-of-the-art digital printing is used as well as traditional printing techniques. Wallpapers from Hohenberg adorn castles and museums, bars and lounges, hotels and offices, shops and homes not only in Germany, but all over the world.
